FOREWORD

AVANTGARDE SERIES

The High-End **AVANTGARDE SERIES** combines top design with the latest fabric and metal materials, as well as the most innovative manufacturing technologies. This series leaves nothing to be desired.

PERFORMANCE SERIES

The **PERFORMANCE SERIES** offers a balanced ratio of stability, robustness and comfort. Here we have used detailed solutions and materials in various chairs and tables that are part of the series in our Avantgarde models.

BE-SMART SERIES

The **BE-SMART SERIES** series is our entry-level series. Functionality is the main thing here. The materials are kept somewhat lighter and simpler to match the use. The focus during development is always on the best price-performance ratio.

Really good products are created when long experience and an innovative spirit come together. Camping is a hobby that the employees at WESTFIELD TQC share with many people. Our passion for developing high-quality, functional products that meet the many challenges of everyday camping life is reflected in our

constantly growing range of camping furniture and awnings.

To make it easier to choose, we have divided our large range of camping chairs, tables and accessories into three product series: AVANTGARDE, PERFORMANCE and BE-SMART.

The camping furniture in our **AVANTGARDE SERIES** impresses with numerous product details that are unique on the camping market. Solutions and materials that are so innovative that we have a patent on many of them. For chairs and tables, for example, we use materials such as the DuraLite alloy, which not only saves weight but is also

highly resilient. These are all developments that stand for high stability and exceptional outdoor properties. Anyone who chooses a camping chair or table from this high-end series is opting for modern design, high comfort and extremely long durability.

TECHNOLOGY + MATERIAL

THE PATENTED TECHNOLOGY OF OUR FRAMES

The ergonomically shaped seats with **ErgoShell®** technology adapt to the natural shape of the spine and offer optimum support and comfort.

Senso lumbar support

The redesigned LSS backrest with improved head padding ensures relaxed sitting and reclining comfort.

DuraProtect® armrest with metal adjustment

Thanks to the metal slide rails, the adjustment system does not wear out even after years of use. It is very smooth-running and extremely stable.

Light metal folding mechanism

The joint consists of a light metal structure, guarantees easy folding and offers maximum stability.

DuraLite® SpaceBox frame

The new L-shaped frame structure enables a compact folding size. The frame is ultra-light and highly resilient.

The frames of the **AVANTGARDE series** are made from a patented light alloy.

The camping furniture in our **AVANTGARDE SERIES** impresses with numerous product details that are unique on the camping market. Solutions and materials that are so innovative that we have a patent on many of them. For chairs and tables, for example, we use materials such as the Duralite alloy, which not only

saves weight but is also highly resilient. These are all developments that stand for high stability and exceptional outdoor properties. Anyone who chooses a camping chair or table from this high-end series is opting for modern design, high comfort and extremely long durability.

The **DURADORE® 3D** Soft Touch upholstery material from the **NOBLESSE** series:

The 'Aquarine Technology' allows rainwater to run through the structure. The fabric dries very quickly as a result.

Thanks to the special weave of **DURADORE® 3D** Mesh, the fabric is breathable and water-permeable.

Upholstery material **CASHMERE TOUCH** model **ELEGANCE**:

The 100% acrylic material is made from 100% spun-dyed polyacrylic fibre. This makes the fabric highly UV and light resistant, water and dirt repellent and robust. In addition to its excellent outdoor properties, the material feels pleasantly soft on the skin.

NOBLESSE

The super lightweight **NOBLESSE** impresses with a very high level of seating comfort. The contiguous back and seat upholstery in **DuraDore® 3D** extra soft mesh, together with an extended seat surface of 50 cm with integrated **ErgoShell®** upholstery, ensures a unique sitting experience. The frame is made of highly

resilient, double-coated **DuraLite®** material. **SpaceBox®** technology reduces the folding size to a storage space-friendly format. The high-quality folding hinges made of **DuraLite®** and the armrests made of DuraProtect stand for durability and lasting comfort.

SUPERIOR CG

The comfortable director's chair is the ideal holiday companion for anyone with limited storage space.

The sturdy frame construction made of **DuraLite®** material combined with the gene-

rous seat made of our **DuraDore® 3D** mesh fibre fabric makes this chair unique.

The very slim folding dimensions even allow it to be transported in a van or small car.

ur PERFORMANCE SERIES offers the widest range of camping furniture in the Westfield TQC range. Here campers will find a large selection of chairs with matching accessories, clever camping table solutions, camping

loungers and innovative steps that make it easy to get into your caravan or motorhome. The **PERFORMANCE SERIES** offers the best balance of solid design, robustness and comfort.

CHAIRS TECHNOLOGY + MATERIAL

THE SPECIAL FEATURES OF OUR FRAMES

The ergonomically shaped seats with **ErgoShell®** technology adapt to the natural shape of the spine and offer optimum support and comfort.

ERGONOMIC

At least five position metal armrest adjustment

Thanks to the metal slide rails, the adjustment does not wear out even after years of use. It is very easy to adjust and extremely stable.

Light metal folding joint

The hinge for folding the chairs is made of a zinc alloy. It enables very easy folding and unfolding and offers lasting stability.

DuraLite® frame

The DuraLite® frame with 30% thicker walls makes the PERFORMANCE chairs virtually indestructible.

Senso lumbar support

The LSS backrest with improved head padding ensures relaxed sitting and reclining comfort.

LIGHT-METAL

The frames in the **PERFORMANCE-SERIES** are made from a patented light metal alloy.

ADVANCER PRO! new

With the **ADVANCER PRO**, we have developed a folding chair with great future potential based on the very popular **ADVANCERS**.

With a packing depth of just 14 centimetres instead of 17 centimetres, the Advancer Pro takes up even less storage space.

The armrests in the new design conceal the metal glide rails and offer a finer gradation of recline with 6 instead of 5-way adjustment.

The optimised fabrics also set new standards. The DuraDore® 3D Soft Touch Mesh is the best 3D mesh on the market - softer and more pleasant on the skin.

New: more compact

WE ARE SETTING NEW STANDARDS WITH OUR **PERFORMANCE** TABLE RANGE!

The **AIRCOLITE LUXURY TABLES** are presented with a self-contained table top made of 100% aluminium, manufactured in series for the first time.

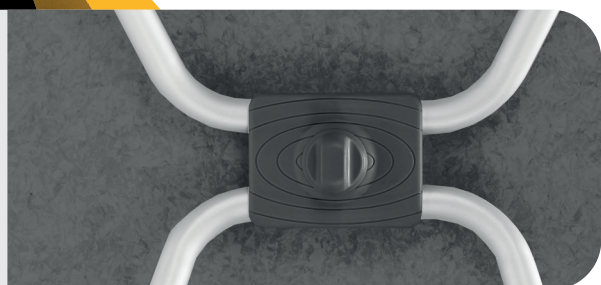

The inner honeycomb structure, top and underside and the surrounding wall are all made of the same weatherproof material. The table top is also coated. This prevents the paintwork from fading due to UV radiation.

The patented **FastFix system** provides a unique set-up experience. The table legs can be infinitely adjusted to a height of 63-74 cm with just one hand. Despite uneven floors, the table is stable and level in no time at all.

TABLES TECHNOLOGY + MATERIAL

FRAMES **PERFORMANCE** AND **BE-SMART** IN COMPARISON

General equipment:
Central lock and feet.

Central lock

The stabilising struts of the table frame can be quickly attached and detached using the central lock on the underside of the table top.

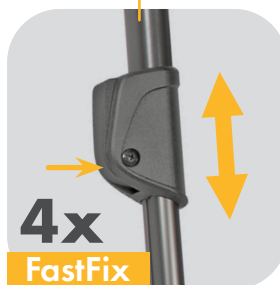

Feet

Wide swinging feet protect the awning carpet and prevent it from sinking in on soft ground.

AIRCOLITE + AIRCOLITE LUXORY

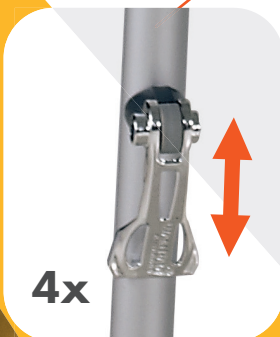

Lightweight, reinforced
Aluminium frame Ø 28 mm
Colour: anthracite

One-handed quick-release fastener on each table leg (supported by a spring). This allows easy height adjustment for uneven floors of up to 11 cm.

SUPERB/RESINO/SMART STAR

Lightweight, reinforced aluminium
frame Ø 25 mm
Colours: SUPERB+ SMART STAR
in silver, RESINO in anthracite.

Two-handed quick-release fastener on each table leg. This allows easy height adjustment of up to 11 cm for uneven floors.

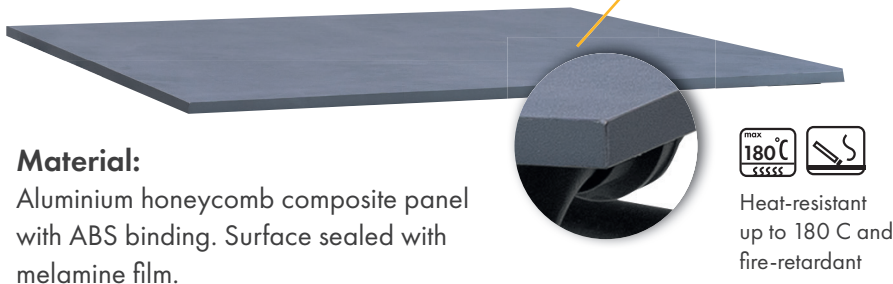

TABLE TOPS **PERFORMANCE** AND **BE-SMART** IN COMPARISON

THE FOLLOWING PROPERTIES APPLY TO ALL PERFORMANCE AND BE-SMART TABLETOPS:

-  Abrasion-resistant
-  Scratch-resistant
-  Loadable up to 30 kg
-  UV-resistant
-  Moisture-repellent

AIRCOLITE LUXURY

Material:

Aluminium honeycomb composite panel with ABS binding. Surface sealed with melamine film.

AIRCOLITE

Material:

Lightweight wood in sandwich construction. Absolutely waterproof thanks to the plastic surround. Protected against scratches by hard surface sealing.

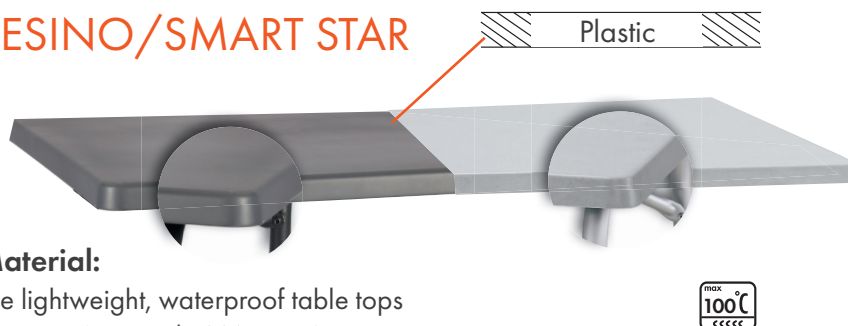

SUPERB

Material:

Chipboard with polypropylene spray frame. Surface sealed with melamine film.

RESINO/SMART STAR

Material:

The lightweight, waterproof table tops from RESINO and SMART STAR are made of robust ABS plastic with rounded edges.

IN THE SIZE 120 x 80.

Thanks to modern materials and a solution-orientated design, the **AIRCOLITE TWIN** offers space for up to 6 people with a pack size that is just half the size of its surface. The two-part, robust lightweight wooden tabletop is moulded in plastic to guarantee durability. The aluminium folding frame, split in the

middle, ensures a low overall weight and, together with the two-part table top, facilitates storage in the storage compartment. The quick-release fasteners make it easy to adjust the height of the four legs.

1 Table top:
Lightwood top with polypropylene injection moulded frame

2 Frame: Aluminium tube Ø 25

3 Height adjustment:
FastFix automatic, 11 cm height adjustable (from 63 - 74 cm)

179,95 € (RRP)

AIRCOLITE

The combination of modern materials and proven design makes this table the weight-optimised further development of the classic 'SUPERB'. The robust lightweight wooden tabletop is moulded in plastic to guarantee durability. It is absolutely heat-resistant, water-resistant and scratch-resistant.

All four legs are fitted with carpet-friendly feet and the patented FastFix system. The automatic height system allows the table height

to be easily and continuously adjusted from 63 to 75 cm with just one hand for optimum alignment.

The lightweight aluminium folding frame ensures effortless transport.

The **AIRCOLITE** series impresses with its compactness, design, functionality and durability.

The products in the **BE-SMART SERIES** focus on high comfort, solid quality and a balanced price-performance ratio. For example, this series offers particularly light-weight and space-saving camping furniture. It is therefore perfect for motorhome and caravan

owners who have limited storage space and load capacity.

The **BE-SMART SERIES** combines lightness, flexibility and comfort with the usual high product quality of the WESTFIELD TQC brand.

ZENITH 2.0

Wherever soft ground makes the use of a four-legged chair difficult, the **ZENITH 2.0** offers clear advantages thanks to its round tube frame. Its low weight makes it the ideal companion for anyone looking for a lightweight high-back chair without compromising on comfort.

A special design allows the **ZENITH 2.0** to have an optimised pack size. The heavy-duty

NyloGore® joint is made of fibre-reinforced nylon and is resistant to heat and breakage. The **DuraDore® 2D** mesh cover material ensures a high level of comfort. It is soft, breathable and UV and light resistant. In our range of aluminium chairs, the **ZENITH 2.0** is the lightest and flattest version.

MODULOR I+II new

STORAGE

MODULOR I and **MODULOR II** make a clever camping locker solution with a small pack size that allows you to pack the contents at home using the removable storage box. At the campsite, the frame of the module is simply unfolded and the box attached inside - that's it.

The **MODULOR I** includes a storage box that can be filled from above and from the side and an attachable table top. Four individually adjustable feet with extra-large base plates ensure stability.

If more storage space is required, remove the table top and attach **MODULOR II** to **MODULOR I**. Place the table top on **MODULOR II** and the camping cupboard is extended.

Another advantage of the **MODULOR** concept: An additional storage box makes it easier to quickly store purchases weighing up to 12 kg at your holiday destination. Simply swap the storage box filled with shopping for one of the bags in **MODULOR I** or **II**. All your supplies are then in place.
