DIE WESTFIELD OUTDOORS **AWNING SERIES**

MADE IN EUROPE

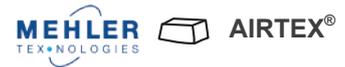

PREMIUM PLUS-SERIES

The air awnings of the **PREMIUM PLUS SERIES** are Westfield's innovative top products.

All products in this series are manufactured in Germany, primarily using European materials from premium suppliers such as Ten Cate.

Westfield's extensive experience, combined with the best techniques on the market, is reflected in the products of the Premium Plus series.

PREMIUM-SERIES

Westfield's **PREMIUM SERIES** air awnings are distinguished by the combination of the finest materials and extremely user-friendly features. Thanks to the unique AAS® system, which inflates the awning at just a few points, it can be set up quickly and easily. The materials used, such as Hydrotech® CottonTouch tent fabric and the construction with "three-layer" air beams, ensure long-lasting, comfortable use.

PREMIUM LIGHT-SERIES

Westfield's **PREMIUM-LIGHT SERIES** air awnings are characterized by the combination of durable yet lightweight materials and highly user-friendly features. The tent fabrics are also made of Hydrotech® RipStop, and the air beams only need to be inflated at a few points. These lightweight travel awnings are ideal for those who frequently change locations.

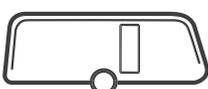

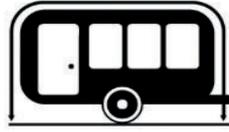

TRAVEL SMART-SERIES

Westfield's **TRAVEL-SMART** series air awnings are distinguished by the combination of extremely lightweight materials and quick setup. The three-layer air beams can be rapidly inflated using the included dual-action pump with overpressure valve. Their low weight and simple construction make the Travel-Smart series awnings particularly suitable for short vacations, weekend trips, and holidays with frequent location changes.

ADVANCER PRO!

With the **ADVANCER PRO**, we have developed a folding chair with great future potential, based on the highly popular **ADVANCER**.

The newly designed armrests cover the metal sliding rails and provide finer adjustment when reclining, offering 6 positions instead of 5.

The optimized fabrics also set new standards. The DuraDore® 3D Soft Touch Mesh is the best 3D mesh on the market – softer and more pleasant against the skin.

Compact folded size:
H: 107 x W: 67 x D: 14 cm
